THE MUTUAL LIFE INSURANCE COMPANY of New York, No. 44 Wall street—This Company, since its organization on the 1st February, 1842 (two years) has issued 1120 policies. The total amount received for premiums and interest on investments, $141,067 exceeding its entire capital of $97,273 after paying all losses and expenses. Has accumulated capital to range from $200,000 to $250,000 during the present year, and by its rapidly extended and growing business. The eminent success and prosperity of this institution offers a strong position. Its capital and resources are now ample as to inspire confidence in its ability and entire safety to its members.
The company is organized upon the most improved principles of Mutual Life Insurance, and offers very great advantages to whole Life Policies, or insurances for short periods, at moderate rates, and all the profits, without incurring any personal responsibility. At the expiration of every five years from the date of the first policy, (which will make the first division of profits to be the last of February, 1848) the whole of the profits will be divided among the insured in proportion to the amount of premiums paid by them, and will form a fund over and above an accumulating fund, to answer all the claims on the life insured.
The progress of this institution thus far gives strong grounds for anticipating a rapid extension of its business, and a high degree of favor to the most distinguished and successful Mutual Companies in Great Britain, where it is well known immense profits have been made.
The importance and utility of Life Insurance is becoming a matter of deep interest with all classes of the community and is now engaging the most public attention, and beginning to make favorable impressions as to the great benefits to be derived from it, as the published monthly statement of facts presented by the company conclusively show.

JAMES COLLINS

OF IOWA COUNTY.

Whig Town Meeting.

The Whigs of the town of Milwaukie are requested to meet at the Clerk's Office, under the Methodist Church, (W. Sept. 9. 1845.

LATER FROM DELAWARE.—The "Indians" have not yet become satiated with the murder of Steele, but at the hour of midnight sally forth to burn and destroy the property of all who do not sanction their murderous movements.

Arrests are constantly taking place.

LATER FROM THE PACIFIC.—The N. Y. Sun publishes a letter from a correspondent at Callao, dated July 4th, in which it is stated that a revolutionary movement had taken place in Equador, and the late President returns to Europe.

A British fleet is said to be on its way to Oregon, to protect British property and settlers at Astoria.

Intelligence from Tahiti to the 1st ultimo, states that the French retain the Islands, and there is not the most remote prospect that they will ever give them up.

☞ A New Orleans correspondent of the National Intelligencer mentions the extraordinary fact, that, though Gen. Taylor has a considerable body of artillery with him in Texas, they have all been sent down there without their guns! It appears that some or all of the guns that the different detachments had with them at their respective points of embarkation from the United States were either not of the proper kind or calibre, or from some cause were not suitable; and that others to supply their place were to be shipped from the North, but which had not yet arrived.

MEANNESS.—There are several individuals about town, who consider themselves respectable, that are in the habit of *borrowing without leave* their neighbor's paper every morning, and leaving the regular subscriber to go without his paper, or run to the office for another. We have the names of some dozen of these respectable gentry, and among them some two or three would-be locofoco candidates, whose names we shall soon give to the public, unless they *reform*.

HERR ALEXANDER.—This celebrated Magician makes his first appearance in our city to-night, at the Military Hall. He is highly spoken of as a gentleman, and as a wonderful performer of apparently supernatural tricks. He performs this and to-morrow evening.

LOCKJAW.—It appears that a remedy for this horrible disease has at last been discovered. The Journal of Commerce records a cure by the application of electricity. The patient was a young woman, in whom the disease had been brought on by cold and fatigue, and the jaws had been closed five days. The electro-galvanic apparatus was applied to the jaw, and had not made forty revolutions before the complaint was entirely removed.

☞ A shrewd farmer in the Vermont Legislature declined answering the speech of a member who was remarkable for nothing but his frothy and pugnacious impudence and self-conceit, thus:—"Mr. Speaker, I can't reply to that are speech, for it always wrenches me terribly to kick at nothing."

FAILURE OF HEAVY IRON-MONGERS.—The Harrisburg correspondent of the Philadelphia Ledger, notices the failure of the Messrs. Bayard, proprietors of the Eineline Furnace, situated near Dauphin, and the Victoria Furnace, located in Clark's Valley, their liabilities being in the neighborhood of $100,000.

☞ The Union contradicts the statement that the Secretary of War has made a requisition on the Governor of Mississippi for a draft of men, but admits that Gen. Taylor is authorized, if necessary, to call for men from Mississippi, as well as from Louisiana, &c.

☞ The Pittsburgh Gazette says that several wagons of muskets had been taken from the arsenal to the wharf, and were to be immediately sent down the river for Texas. Thirty-two tons of arms, equipments, &c., had been ordered by the government.

GEN. GAINES CONDEMNED.—The St. Louis American of August 23d, says the Union of Saturday night, has the following condemnation of Gen. Gaines:

"The fact is that Gen G. started without orders; and, be his motives as pure as they may, they cannot exempt him from the censures of the Executive. The command of the 'army of observation' was given to Gen. Taylor, and General Gaines ought never to have meddled with his command."

LEAD.—The writer of a letter from Galena, Ills., says he learned from the Superintendant of the U. S. lead mines at that place, that the amount of lead shipped from that district this year will reach 60,000,000 lbs. The quantity shipped last year was 43,000,000.

NEW PAPER.—The "Blue Hen's Chickens" is the title of a new paper, which has just been started in Wilmington, Delaware, by Messrs. Jeandell & Vincent. It is whig in politics, well stored with good matter, and printed on a large sheet.

☞ The Hon. MORGAN L. MARTIN has arrived in town, and taken lodging at the City Hotel. The public may now reasonably expect to be enlightened in the art of bank financiering. We publish to-day, as a text for Mr. Martin, an article from the Madison Express.

☞ It will be seen by the call in this morning's paper that the place of holding the Whig meeting this evening has been changed from the Court House to the Clerk's office under the Methodist Church. Let every whig be prompt in his attendance.

We find the following communication in the *Madison Express*:

MR. MARTIN AND HIS BANK.

This gentleman takes it rather hard that he should be accused of any thing wrong in relation to his Bank. He says that *innuendos* are thrown out implicating his moral honesty. Nothing *tangible*, he says, is laid to his charge, or he would meet it in *another way*;—whether by *duel* or the *law* he did not say—but as it was, he would only *explain* the matter. The explanation was, that in 1833, when the rage of speculation was at its highest pitch, most men engaged in it, sure of making fortunes, some by paper cities, and others by banks; that he had but little to do with towns, but he tried his fortune in *Bank stock*. He commenced with $50,000, and left off with only about $1000 or $5000 worth of property. He was only about 18 months President of the Bank, and then resigned, and Mr. Stringham, the Cashier, had the sole management of the concern, and he broadly intimated that whatever frauds were committed, or whatever wrongs the people suffered in consequence of the failure of the bank, were justly chargeable to Stringham and not to him. He further said that at the time the legislature pounced upon the bank, it was the determination of that body (they were locos of course) to break down the bank any how, that the bank at that time was able to redeem all its liabilities, but the assets were wasted by the delays which occurred in bringing the law to bear upon it. But after all, he said the report made by the Receiver to the last court, showed assets to the amount of some $60,000, and liabilities only to about $40 000! He thought it hard, if he should be defeated in his election, on account of his connection with that bank; and still harder for his children to inherit his name and that stigmatized with the frauds he was charged with, &c, &c.

Now all this may be as he says; but as he said nothing about the *jist* of the charges laid to him, we, the people, still desire further *explanation*.

1. He said nothing about borrowing the $20,000 in specie, of a friend in New York, which was reported to be in the bank on the day it commenced operations, but which is said to have been returned to that friend a few days after! Of the truth in this matter we should like to know. If it was so, and his not denying it after being called upon publicly to do so, if untrue, leaves one to think it was so—then there was a fraud in the very commencement of the concern, by pretending that he had $20 000 in specie in the bank, when in fact he had not a single dollar!

2. He did no explain *how* he was the loser of some 45 or $50,000 in 18 months of his Presidency of the bank. Somewhere near *three hundred thousand dollars* were issued and put in circulation by the bank, or rather its officers in the space of 18 months or two years, of which the people have lost probably, $200,000, in the way of discounts and dead loss. It is presumed that when Mr. Martin loaned this money out, he took notes for it, or took one promise to pay another; and it is presumable that one of the promises was as good as the other. And as many who gave their notes for the bills, bought up the bills at 25 or 50 per cent discount, and paid up their own promises with the depreciated paper at par, we, the people, cannot understand how the bank, or those that loaned from it were losers. And as the books of the bank showed that Mr. Martin was one of the greatest *loaners* from the bank, and as he had the same opportunity of others to purchase the bills at a discount, to pay up his own liabilities, it is doubly mysterious how he could lose $50,000 by the operation! Indeed, that bank must have been a singularly unfortunate affair. Suppose the President drew from it and used $10,000. We must suppose that so able a financier would not throw the *rags* to the winds, but that he laid them out for property of some kind. Now suppose he bought in those very bills, as some others did, at 25 or 50 per cent discount, and therewith paid up his liabilities, we would like to know how, among the seven wonders of the world he could lose 45 or 50 000 dollars by the operation. Will he condescend to explain this mystery?

3. He said the Legislature declared the charter of the bank forfeited because Stringham, the cashier, refused to let the committee of that body, sent for that purpose, have access to the books vaults, &c. of the bank. But he forgot to say anything about his letter to Stringham, advising him to refuse that access, assigning as his reason. "In my opinion it will make no difference with their report whether you refuse or not, for they will be determined to find fault beforehand." Honorable locos they of that Legislature must have been to be "determined to find fault beforehand," with a brother loco's bank! In this Mr. Martin gives no great compliment to his brother locos in this matter. But the favorable report the committees of that legislature made in reference to other banks, and especially Mineral Point, where they had access to the books, &c. shows they were *not* determined before hand to find fault, unless they had ground for it. But the very fact of Mr. Martin's advising Stringham to refuse the access to the books, &c tells in terms of thunder that *he knew that the affairs of the bank would not bear investigation*. What other reason can be assigned for the refusal? Does not such a course smell of fraud?

4. Mr Martin laid the age of speculation in 1838. This it is true, was the date of the *commencement* of the operations of the bank, though its charter, if I am not mistaken, was passed some four years before that time by the Legislature of Michigan, and when he was President of the Council. But the speculating mania was on the wane before that year. The banks of the country paid specie for their bills till 1837, when the famous specie circular caused a general suspension. While specie was paid, a bank without a dollar in hand could not well afford to pay out specie! But as soon as the banks generally suspended specie payment was the time for *this* bank to go into operation, and suspend with the others. Paper cities and bank stock were less in vogue when the bank of Wisconsin went into operation, than they had been; and had it not been for the reported $20,000 in specie in the bank, probably not a dollar of its bills could have got into circulation. The people had a plenty of suspended banks on hand, not to encourage another. But the idea of *specie* in its vaults, gave currency to its bills for a short time. Now taking all these circumstances into consideration, the fact that the charter lay dormant till the general suspension of specie payment took place—that $20,000 that was reported to be in its vaults at its commencement had, as is alledged, been returned to the friend from whom it had been borrowed for that *special occasion*, and that the bank blowed up in about 18 months after it commenced its issues, leaving the people minus at least $100,000, who can avoid thinking that the concern was fraudulent from the beginning to the end?

5. If the Bank has $60.000 of assets, after the alleged waste by Stringham and the delays of the Law, and only $40,000 of liabilities, the stockholders must have more left than they ever paid into it!—But the mysteries of the case increase as we progress. How in the name of the ninth wonder of the world could Mr. Martin, who handled the most of the *bills* of the bank lose $50 000, and yet make a clear profit of some $20,000! It seems there was no capital to begin on, and to make $20 000 out of nothing in 18 months was doing a good business! But the mystery is, how could the financier who managed the bank to such profit, manage his *own* affairs so as to lose $30,000 in the same time, and that too, out of the very money the bank found so profitable? In truth, Mr Martin must excuse us if we don't understand all those things, as fair and honest, until further explained: if indeed they can be.

B.

The Newark Daily Advertiser says.—We have seen this morning a letter from the venerable J. Q. Adams to the Rev. Dr. Murray, of Elizabethtown, in reply to the invitation to deliver the address at the inauguration of the monument to the memory of the Rev. James Caldwell, the martyr pastor of the Revolution, in November next. Mr Adams enters with characteristic feeling into the subject, expresses his hearty concurrence in the contemplated commemoration of heroic virtue," and adds that an "infirm state of health and the decay of body and mind incident to advanced age have made it impossible for me to foresee whether at any given day in advance it may be in my power to address a meeting of my fellow-citizens." "But if the committee can make arrangements for the whole ceremony without depending upon my participation in it, and yet reserving a short space of time in which, if present, I may express my feelings," &c., he will endeavor to be present. "To contribute one sprig of myrtle," says the venerable old patriot, "to clothe in unfading verdure the grave of that blessed martyr in the cause of my country's freedom would be, could I command my own destiny, the last act with which I would close my own earthly career."

This beautiful letter, which bears evidence of the tremulous hand of old age, will be published hereafter. We were much struck with the seal—an acorn springing into new life, with the motto—"ALTERI SECULO."

FROM N. ORLEANS.—Five companies of the 5th Infantry with the volunteers left New Orleans on the 21st for Texas. The whole number embarked was as follows:

Major Gally's artillery,	106
Capt. Forno's do	83
Seventh Infantry,	214
	403

The volunteers took with them eight field pieces with fixed ammunition.

From the N. O. Republican, Aug. 23.

TEXAS.—By letters received yesterday from Texas, via Pensacola, as late as the 14th from Arkansas, and the 15th from Corpus Christi, we have been put in possess on of some additional information from these quarters. The U. S. troops had left St. Joseph's Island, and had encamped on the main land. The officers and men were in fine health and spirits, and the fine breezes and cool atmosphere about the camp left no room for fear that any sickness would appear.

No accounts of the Mexican army of invasion had reached the camp as late as the 14th. A courier had been despatched to Matamoras and returned: he brot no news of Arista or any other Mexican general, and reports the force at Matamoras as not exceeding 400 strong.

The subjoined is an extract of a letter from an officer of the U. S. Dragoons, dated at Nacogdoches, July 31st:

The seven companies of Dragoons arrived here to-day, after a very warm march of six days from Fort Jessup.

We shall leave here on the 1st of August for the Trinity and thence for the San Antonio, where you will again hear from me. The command stood the march very well, and hope to do good service when we reach the disputed boundary.

SERIOUS ACCIDENT.—The steamboat New Orleans yesterday morning about 5 o'clock struck a rock in the Detroit river opposite the upper limekiln, some 2 miles above Malden. She proceeded on her course, however, for a mile or so, when she was found to be filling with water and was run upon the Canada shore. The passengers all escaped without difficulty, and afterwards came up in the London. The New Orleans is, of course, very seriously damaged. An ugly hole was driven into her bottom, and she has some 10 feet water in her hold. Her deck cargo we presume will have been saved.

The New Orleans, formerly the Vermillion, was rebuilt at this city about a year ago, and is a fine, staunch vessel. She was owned, we understand, by the Western transportation company at Buffalo—Capt. Brundage, commander.

[Detroit Adv. 6th.

☞ GEO. G. BLODGET, Esq., of this city, has been appointed Commissioner for the State of Michigan, to take the acknowledgement of Deeds and other writings under seal to be used and recorded in that State.

C. M. CLAY.—The N. Y. Tribune learns by a gentleman from Lexington, that Mr. C. is fast recovering from his severe sickness.

TRADE AND COMMERCE.

OFFICE OF THE DAILY SENTINEL,
Milwaukie, Sept 10, 1845.

The Wheat market is still improving. Sales yesterday from 73 to 74½. Flour, 3,75; Oats, 23

NEW-YORK, Sept. 1.

The continued light receipts of flour causes a firm market, and rather better prices. All the fresh Genesee afloat at 4,75 is taken, and some few sales of better than common, of new wheat have been made at 4,81½. In other descriptions there is no movement. No wheat afloat. Corn, rye and oats remain as on Saturday.

ALBANY, Sept. 1.

Flour has taken another hoist, and holders stiff as a crowbar at that. We note a sale of over 400 bbls, afloat, Safford, at $4¾. We quote $4¾@4¾ as the fair market range. Some fancy brands are held still higher than the last mark. The news from England is waited for with considerable anxiety. Holders are sanguine of a considerable rise on the strength of it. We note a sale of 1600 bush oats, to go east, at 42c; 9000 bush shorts at 1½c. We have elsewhere noted the sale of 2000 bush Albany county wheat to a miller in this city on Saturday at 99c.—[Citizen.

BUFFALO, Sept. 1.

There continues still to be an active demand for wheat and flour. The arrival of the Caledonia at Boston, will probably settle the state of the market, for a time at least.

Sales of flour were made yesterday of about 1,300 bbls western, various brands, in several lots at 4,12½, and 250 bbls old at $4.

Wheat is taken as fast as received, and much is purchased to arrive—5300 superior Milan, on board the schr Skinner, brought 87c—4000 on board the Emily, at 86—the brig Empire's cargo goes to Black Rock to be manufactured.

On the other is a first rate frame barn with an underground stable, a good house, and 25 acres of land under a high state of cultivation being also well watered with never-failing springs. The above described farms lie on the Menomonee river 6½ miles west of Milwaukie, and two miles above Hart's Mills. The land is unsurpassed for fertility, and surrounded by good improvements and enterprising farmers. Either of the above will be sold at the option of the purchaser. this moment reached us, Which will most effect the interest of the citizens of Wisconsin, and whether there will be a similitude in effect, is yet to be determined. SAND'S SARSAPARILLA.—The removal of suffering has been the object of the philanthropist in every age of the world, but the principles of treating disease progressed but slowly for many thousand years owing to the limited means of acquiring knowledge,—but since the introduction of the printing press and steam engine it may literally be said,—"Light has dawned upon the world," and the man of the nineteenth century possesses advantages which his fathers never did. In this general diffusion of knowledge, remedies have been sought after and discovered in the beautiful storehouse of the vegetable creation exactly calculated to combine with neutralize and dissolve the subtle poison which diffuses itself throughout the general system and prostrates man in the dust. Sand's Sarsaparilla, a purely vegetable preparation, has been thoroughly tested in a variety of diseases and in from experience, known to be a safe and effectual cure for Scrofula or Enlargement of the Glands, Leprosy, Salt Rheum, Scald Head Eczema, Rheumatism Palpitation of the Heart and other diseases originating in an impure or depraved state of the blood or derangement of the digestive organs. Original manuscripts of various certificates, letters, of the clergy, Magistrates and lady all confirming the previous statements, are constantly received and will be cheerfully exhibited on application. Facts are recorded sufficiently clear and convincing to satisfy the most incredulous of the real merits of this invaluable medicine

For further particulars and conclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained of agents gratis. Prepared and sold wholesale and retail, by A. B. Sands & Co., Druggists and Chemists, 273 Broadway. For sale also by

WONDERS WILL NEVER CEASE!!

Another remarkable cure of Deafness, performed by Scarpa's Acoustic Oil, in this city Let the case speak for itself

Albany Feb 2d, 1844

Mr Guthrie, 4 Stanwix Hall, Maiden Lane

Dear Sir—I owe you an immense debt of gratitude for inducing me to try Scarpa's compound Acoustic Oil. I had been so very deaf for eight years this winter, that I could not hear conversation with an ear trumpet without the voice being much raised. I have been using the Oil about six weeks in one ear that was far the worst, and with which I was almost totally deaf, and I am happy to inform you that I can now hear ordinary conversation without the trumpet. I feel that I would like to inform the whole deaf community of the astonishing effect of the above medicine. I shall be pleased to see any person who may desire to call upon me, to make inquiries concerning my case. Yours, &c.

PROLAPSUS UTERI

THIS troublesome disease is cured by the use of Hull's Uterine Abdominal Supporter, from the many certificates in its favor we select only the following of Doctor Ashwell—After its success at Guy's Hospital the following certificate was handed to Dr Hull's London Agent for public use—

15 Devonshire square London Mar 17 1838

"Having tried Dr Hull's Instrument for the cure of Prolapsus and Procidentia Uteri, I am glad to express a highly favorable opinion of its utility. In a severe case of entire Procidentia, lately under treatment at Guy's Hospital, it was applied with marked success. Its great support over the passive consists in its affording efficient support to the weakened abdominal integuments, and in its *external* application, instead of its introduction into the vagina. I quite think it will accomplish a permanent cure better and more quickly than the pessary. SAMUEL ASHWELL M D

Obstetric Physician and Lecturer to Guy's London

Sir Astley Cooper, after the apparatus had been several months under his inspection, gave the following opinion for publication—

"This apparatus is beautiful for its simplicity, it is an acquisition to practice. The principle of its operation is quite original and perfect. I shall advise its use, and make use of it in my own practice, in preference to anything I have seen"
